DETAILED ACTION

Election/Restrictions

1. This application is in condition for allowance except for the presence of claims 45 - 54 directed to an invention non-elected without traverse. Accordingly, claims 45 – 54 have been cancelled.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

The closest prior art of record fails to teach or suggest the recited adhesive article. The independent claims identify the uniquely distinct features of a substrate that include a continuous adhesive layer, a first pattern of non-adhesive material forms and a second pattern of non-adhesive material forms, wherein the second pattern at least partially overlaps the first pattern, wherein at least one of the patterns is partially embedded in the adhesive layer and wherein at least part of first pattern is in a different plane than part of the second pattern. The closest prior art of record, Hannington et al. (WO 01/81080 A1), disclose different adhesive articles, which either singularly or in combination, fail to anticipate or render obvious the above limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
